Leave to soak while washing the dishes, then pour out the water and fill with clean water and do the same way. If patching is still adhered to the inside of the utensils, use hot range for same.

THE POLITICAL WATCH TOWER

Political gossip have been rather busy of late with the names of two known citizens in connection with the Republican nomination for United States Senator.

One of them is Perry W. Weldner, of Los Angeles, and the other, C. M. Bell, of Antioch, Contra Costa county, who has served several terms in the State Legislature.

There is no likelihood of there being a dearth of Senatorial timber when the legislative carpenters are ready to begin work. In Los Angeles the names of E. A. Messerve, and the renegade ex-Postmaster Motley H. Flint and ex-Gov. Gage, have been mentioned on the Republican side. Boniface Frank Miller of Riverside is also proposed.

Among local Democrats George S. Patton and T. E. Gibbon are regarded as aspirants.

In the north and quite generally throughout the State, Gov. Gillett is regarded as the right man for the place. Ex-Congressman Works still persists in believing that he is actually running for the honor, while Dr. Lowell of Fresno also hopes to have the Lank-Rooster support if the day ever comes when he and the renegade Republicans can corral enough votes by coalition with Democrats in the Legislature to win the prize.

The Republican State Central Committee is to meet in the Palace Hotel, San Francisco, June 23, for the purpose of fixing a date for the convention which must be held in accordance with the provisions of the new election law, to prepare a platform after the manner of the national committee, and first selecting candidates for public office, and later adopting a set of principles, for them to go before the people.

There is constant inquiry locally as to whether the Republicans will do as the L. R. and Democratic organizations have done, and hold a convention for the purpose of naming candidates, or providing for unity of action; but the prevailing opinion seems to be, that the fact that the L. R. is to be the champion of the "reform" work of the agitators and theorists. Of course, if the principles enunciated do not suit the candidates, they need not deem themselves bound by them.

Catcher Jess Orendorff.

Los Angeles ball player, whose skull was fractured by a pitched ball in the game at Oakland yesterday morning.

## SERIOUS ACCIDENT.

# JESS ORENDORFF MAY DIE FROM CONCUSSION OF BRAIN.

(BY DIRECT WIRE TO THE TIMES)

SAN FRANCISCO, June 5.—[Re-  
sive Dispatch.] Hit under the left  
ear by a pitched ball during the  
Pacific Coast League baseball game at  
Oakland this morning, Catcher Jess  
Orendorff of the Los Angeles club lies  
at the Folsom Hospital in Oakland,  
suffering from a severe case of con-  
cussion of the brain. His condition is  
serious, but not critical and from the  
latest reports he is resting quietly.  
According to Dr. J. Goodwin Thomp-  
son, who has the case in charge, the  
injured player will probably recover,  
although a hemorrhage may cause his  
death. The crisis will come tomorrow  
morning.

The accident happened in the third  
inning of the game at Freeman's

Park. Orendorff was at bat, when  
Pitcher Lively threw a fast ball, which  
Orendorff didn't try to avoid until too  
late, thinking that it was a curve. It  
was a severe blow and the batter im-  
mediately collapsed. He recovered con-  
sciousness in a few minutes, but ap-  
parently his organs of speech were af-  
fected and he was unable to speak a  
word until late in the afternoon. It  
was reported from the hospital this  
evening that the injured player had  
again relapsed into unconsciousness.  
Orendorff is 35 years old and has  
been in St. Louis. He has been  
catching for Los Angeles for two sea-  
sons and was considered so highly by  
experts that the Chicago Cubs drafted  
him last year, but he refused to re-  
port and was later signed by the Los  
Angeles team.

everything on the ball and the Angels  
were lucky to get that many.  
Don Cameron was the star in the  
afternoon affair, saving extra innings  
with a beautiful long hit over the right  
field fence in the last of the ninth in-  
ning after two were out. Up to that  
time the teams had seen-sawed along  
fishing for every inch. The Cubs but-  
tled now and then, but their heavy  
hitting carried them up and on in spite  
of all that. The close of the third  
inning the Angels had a lead of two  
runs, but it did not deter the Com-  
muters, who tied it up in the fourth  
and added two more in the fifth. Then  
the Angels made it six up in the sev-  
enth and it was a big question until  
the climax in the last period.

TONY BLOWS UP.  
Tonnness started to work for the  
Oaks and lasted just three and one-  
third innings, during which time the  
Angels chased three runs across the  
park. He was very effective up to the  
third, when he had all his trouble in  
three walks and two hits, including a  
double. Moser was called to the rescue  
and he did better, although he was not  
invincible by any means. The score  
in the first inning: Cutshaw walked, went  
to second on Warren's sacrifice, to third  
on Christian's out, and scored on Carroll's  
single. Another run came in the last  
of the second when Mize singled, was  
advanced to third on Seider's choices  
and came home on a pretty double  
steal.

For the Angels, Criger opened the  
third inning by striking out, but Daley  
and Bernard walked and then Howard  
came with a double which scored  
Daley and put Bernard on third. Dilon  
put in Wheeler to bat for him and  
Wheeler was passed, killing the bags.  
Murphy hit to Ware, who caught  
Wheeler at second, but the double,  
which would have retired the side,  
failed, and Bernard scored.  
Roth's hit scored Howard and Ton-  
ness was called to the bench. About  
the first thing Moser did was to let  
Jones a wild pitch, letting the fourth  
tally across. Delmas went out.  
In the fourth Maggart and Mize  
made shingles and were each advanced  
a base by a wild pitch. Mize then  
scored Maggart and while Criger was  
dreaming away in the box, Cutshaw,  
who had walked, started for second,  
drawing a poor throw and allowing  
Mize to score.

Los Angeles evened up the score in  
the seventh on three hits, a squeeze  
and an out. Then in the ninth the  
Angels started something which was bril-  
liantly stopped by Ware's unassisted  
double. Cameron's homer ended the ar-  
gument. The scores:

TWO HEAVENS.  
Kid Mohler, captain of the

ceived word yesterday from his  
manager, Danny Long, that the  
San Francisco ball team had  
purchased the former Seal  
pitchers, Browning from De-

heavens would report to Mohler  
on Wednesday of this week.  
If these boys are as good as  
they were when they left the

STUNGI

CATEAL AUTO, BUT IT WON'T RUN

THEY USE HORSE AND WAGON OPERATING.

Thieves Enter Locked Garage, Physician and Two Men Run Away So That Engine Will Arrest the Owner, But Abandon the Motor Two Blocks Away.

Stealing a horse after the barn is locked is a simple operation compared to appropriating an automobile from an unlocked garage—at least was the evident conclusion of a well-to-do visitor to the garage of Dr. F. Shurfee, No. 2732 West Twelfth street, Saturday night. An automan offers two objections as an article plunder. It is apt to sound on a tire if the engine is started, and if the engine refuses to start, it is extremely hard to get away with it.

The daring and ingenious burglar who coveted Dr. Shurfee's machine thought they were wise enough to provide against both contingencies. They equipped themselves with a two-wagon and took the automobile in the night. The saw the departing of the machine and concluded that the engine was out of commission and the thieves were on their way to repair shop with it.

Two blocks from the residence the thieves found progress too slow, tried to start the engine. It refused to run. The thieves, instead of confronting them, even if they ceded in towing it off safely, decided that an automobile is somewhat of a nuisance. They abandoned their plunder and drove the machine was found yesterday morning where they had left it.

servant, a gay young English-

or less consequence fit in and out,  
building an edifice of pride and sus-  
picion, love and hate, which makes the  
play.

Mr. Hackett, as Jennico, was force-  
ful, dignified, and at all times a real  
living man in a very unnatural, book-  
ish part. His acting in this role  
speaks volumes for his ability. Would  
that we could have had him opening  
in a worthier assignment.

Miss Vane plays the part of Michel,  
the young spy, with fiery abandon  
and great dramatic strength. She  
dominated the stage from the moment  
she entered it, and, under proper di-  
rection, promises to be a tower of  
strength in the Hackett organization.

Mr. Montoya is picturesque, dashing  
and characteristically resourceful in  
the "heavy" role of Eugene von Roth-  
enberg.

Arthur Hoops, a talented comedian  
of very high sort, scores a distinct im-  
pression as John Beddoe.

I confess I cannot but enthuse over  
either the personality or the acting of  
Miss Beatrice Beckley. Mr. Hackett's  
leading woman. An intelligent wom-  
an, yes, but with so unnatural a meth-  
od of elocution that her speeches often-  
times totally fail of purpose, while her  
acting has little magnetism or spon-  
taneity—nothing, in fact, to make it of  
telling value.

The support is generally good, and  
the details of the production are cred-  
itable.

Charles King and his company at  
the Grand Operahouse opened yester-  
day to two good-sized audiences with  
a good production of Daniel Sullivan's  
drama, "The Parish Priest."

This is the fourth and the best pro-  
duction that Mr. King has given, both  
himself and every member of his com-  
pany appearing to advantage, while  
he has mounted the play in a most  
picturesque manner.

Clara True Leaves San Francisco for New Mexico—Indians as They Part from Her—Gives Quaker Name for a Retrial of His Case.

BERNARDINO, June 5.—Mrs. Clara True, who for a number of years has been a resident of San Francisco, left this morning for New Mexico, having resigned from the service to turn her activities to the Indians.

True is a remarkable woman, who has made many improvements in the Indian, among large groups of men and women of wealth in the state of the simple red folks, and a campaign against "bootlegging" which paralyzed that liquor.

she commenced her crusade and repeated warning that she would be killed. She rallied to her support a number of Indian officers. One of the most prominent was a man named Santa Manuel, who was a very powerful man. The bootleggers laid a trap for her and she was captured.

armed, and with a determination to capture the liquor venders, she was taken to her quarters by night through the darkness of the night, and employing every means to prevent the "bootleggers" from escaping.

Under Sheriff Charles H. True, who had been arranged to be a witness in the trial, she was taken to the jail, and she was kept there for several days. The bootleggers were not allowed to see her, and she was kept in a cell.

True, who is a woman of great courage and determination, is now in the hands of the Indians. She is being kept in a cell, and she is being treated very badly. She is being kept in a cell, and she is being treated very badly.

truth must be a man who values intellectual life. Of one thing we may be sure, this vital relation of Jesus Christ to the intellectual life of mankind is not accidental. Schools, plain students may not always understand and acknowledge their intellectual indebtedness.

"Let me say that the first aid to modern knowledge we may find the expanding influence of the faith inspired by Jesus Christ. While it has been truly said that knowledge furnishes the material which faith uses, it is equally true that faith exercises a profound and wholesome influence upon knowledge. Faith and knowledge will be found operating under the laws of reciprocity."

NEW SEPTIC PLANT. Today the office of the City Engineer will begin drawing plans for the new septic plant to be built at the city farm, near Alhambra. For several months the administration has been diligently looking for some sort of a satisfactory septic tank to be installed at the city sewer farm for the purpose of purifying the sewage in order that it can be more effectively used for irrigating the land.

For several weeks a firm of Los Angeles experts has been working on the proposition. It built a large experimental wooden tank to demonstrate the working and has determined that the amount of sewage now flowing through the sewers will require a great concrete tank 100 feet wide and 200 feet long. A canal will be built from the tank, four feet wide, two feet deep, and 1500 feet long.

The estimated average flow of the sewer is 100 million gallons, or two cubic feet per second, which in English means 1,200,000 gallons per day. The proposed tank will be large enough to hold the entire sewage for twelve hours during which time, practically pure, will be sent to the city farm. From the lower end of the tank the water will flow into a smaller tank, which will be kept at a constant level. The water will be sent to the city farm, and it will be used for irrigating the land.

WOMAN GETS OFF MOVING CAR BACKWARD.

Suffers Slight Concussion of the Brain—Child Swallows Beauty Pin But as It Was Clanged No Harm Is Expected to Result—Woodmen Held Memorial Services.

LONG BEACH, June 5.—Mrs. J. D. Tolber of Carbondale, Ill., stepped backward from a street car while it was in motion, last night, and is at her home on East Third street, suffering from a slight concussion of the brain. She had been downtown and was returning to her home on a Redondo-avenue car. While on the car, she was unconscious when the car reversed. A rent receipt in her purse established her identity and she was hurried home and a physician summoned. She was unconscious for several hours, but today shows signs of improvement.

The four-year-old child of Mrs. May Westfall today swallowed a beauty pin. Luckily it was clasped and a physician, after an examination, found that it had passed into the stomach so no evil effects are feared.

appearance yesterday, in a clever actress of good stage presence and pleasing personality and plays the role of Helen Durkin in a manner that wins sympathy. The other members of the company are all well cast and the performance on the whole is enjoyable and well worth seeing.

The second and last week of George Broadhurst's "The Dollar Mark" will be shown in tonight at the Belasco Theatre with a house that is of the capacity sort—considered from the advance sale of seats. Tomorrow night the local mail order will have the first of a series of eight benefits at the Belasco with "The Dollar Mark" as the attraction. The latter carriers have sold seats in big quantities.

"The Call of the North," the Robert Edson play which will have its first Los Angeles production at the Belasco next week, with Lewis S. Stone in the role originated by Edson, gives every promise of being one of the most interesting plays of the entire season. The locale of the piece is the Hudson Bay country and the people of the play are men of red blood and women of lovely qualities. The play, in particular, will afford this popular Belasco actor many opportunities for effective histrionics. Margaret Langham, as Mrs. Stone, as she is known away from the realm of the footlights, will have one of the most prominent roles, while Florence Oakley, Adele Parrington, Frank Camp, William Yancey, Charles Ruggles and the others of the Belasco company will have fine chances to distinguish themselves.

## ANOTHER WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Black Duck, Minn.—"About a year ago I wrote you that I was sick and could not do any of my housework. My sickness was called Retroflexion. When I would sit down I felt as if I could not get up. I took Lydia E. Pinkham's Vegetable Compound and did just as you told me and now I am perfectly cured, and have a big baby boy."

Mrs. ANNA ANDERSON, Box 19, Black Duck, Minn.

Consider This Advice. No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound, made exclusively from roots and herbs, a fair trial.

This famous medicine for women has for thirty years proved to be the most valuable tonic and invigorator of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound. It cures female ill, and creates radiant, buoyant female health. If you are ill for your own sake, as well as for the sake of your family, try it.

## GOOD-BY. MIOUS WOMAN GOES TO RANCH.

OF "BOOTLEGGER" NOW  
TO BE FARMER.

Clara True Leaves San Ber-  
nardino for New Mexico—Indians  
as They Part from Her—Bur-

BERNARDINO, June 5.—Miss  
Clara True, who for a number of  
months has been the center of  
attention in Southern Califor-  
nia, this morning for the first  
time leaving the state for New  
Mexico, to turn her activities to  
the raising of stock.

True is a remarkable woman.  
She has many improvements in the  
Indian, wrung large appro-  
bation from a reluctant Congress,  
and women of wealth in the  
state of the simple red folks, and  
a campaign against "boot-  
legging" which paralyzed that illegal  
trade.

She commenced her crusade she  
repeatedly warning that she  
would not be approached by her  
adversaries. One of the  
most sensational raids was made  
at a Manuel reservation above  
the "bootleggers" laid a  
snare for her if she attempted to

armed, and with a determina-  
tion to capture the liquor vendors,  
she was seen on horseback, by  
night through the wild  
region, and employing every  
means to prevent the "bootleggers"  
from approaching her. She was  
attacked under Sheriff Charles  
Ward's command, and she was  
quickly arrested. She was  
imprisoned in the jail, and she  
was released after a trial.

time the officers joined in the  
first of the "bootleggers" but a  
wagonload of whisky  
and several of the boot-  
leggers were taken. Since then  
she has been continued with  
her crusade, and she has been  
until the bootlegging busi-  
ness is unpopular.

ago the Indians held a big  
at which Miss True was  
a gold watch, as an ex-  
pression of the esteem in which she  
is held. Armed braves and those  
who generation made speeches,  
and the Indian showed the  
of an emotional nature, for  
a few dry eyes. Many of the  
men wept as they bade the  
woman goodbye.

she commenced her Indian  
crusade five years ago as teacher  
in a little school in the wilds  
of Dakota. There she met  
Roosevelt, who was in the  
territory, and his interest in  
her was great. A part of her  
winning personality de-  
termined the acquaintance then  
she is also a personal friend  
of President Sherman, and num-  
bers and Congressmen from  
both East and West among  
her friends.

Coast Artillery Off For Exercise.  
San Diego Notes.

SAN DIEGO, June 5.—The big guns  
at Fort Rosecrans will boom Wednes-

ary target and for record at a mov-

screen of heavy wire, 30 feet high  
and 60 feet long, mounted on a float.

The War Department considers it  
greatly superior to the old style pyra-  
midal target. The trial shots are to  
be fired soon after 9 o'clock in the  
morning and it is expected to finish  
by 11 o'clock, so as not to be danger-  
ous to ocean craft. Members of the  
sixth and eighth companies of Volun-  
teer Coast Artillery will witness the  
practice. The firing will be under di-  
rection of officers of the fifteenth com-  
pany.

## GOOD ROADS. TWO HIGHWAYS RECOMMENDED.

IMPERIAL COUNTY COMMISSION  
REPORT IS READY.

North and South Thoroughfares from  
Brawley to Calexico and East and  
West Road from Holtville to Moun-  
tain Springs Favored—Cost is Half  
a Million.

EL CENTRO, June 5.—The Imperial  
County Highway Commission will sub-  
mit its report to the Supervisors to-  
morrow, recommending the construc-  
tion of a north and south highway from  
Brawley to Calexico, and an east and  
west road from Holtville to Mountain  
Springs, in both cases by the most di-  
rect route. The Highway Commission  
delayed making its report for the pur-  
pose of obtaining terms for transporta-  
tion of road making material from the  
gravel pits west of New River. The  
commission has now received satis-  
faction on that point and it is said the re-  
port will show that road material may  
be delivered at any point on the rail-  
road in Imperial Valley for 60 cents  
per ton, and that the San Diego and  
Arizona's eastern section, now being  
extended from El Centro, will be con-  
tinued across New River to the gravel  
pits if the contract for hauling the ma-  
terial is awarded.

It is estimated that the highways to  
be recommended will cost about \$475,000  
and that the commission will advise  
a bond issue to the amount of \$500,000.

**LIBRARY IS GROWING.**  
The El Centro public library board  
will provide at its next meeting for  
the purchase of \$500 worth of new  
books. Although new, the library is  
circulating twenty-five to thirty  
books per day, and the attendance has  
so increased that an adjoining room is  
to be opened as a reading room.

**TRACKLAYERS ACTIVE.**  
Tracklayers on the El Centro end of  
the San Diego and Arizona Railroad  
will have the steel laid as far as New  
River, nine miles west of this city,  
within two weeks. Surfacing will re-  
quire another two weeks, when the  
road will be ready for traffic. The  
completion of the system, the  
extension from El Centro will be op-  
erated as a part of the Holton Interur-  
ban Railway. About the middle of  
July train service will be started, with  
two round trips each day from here to  
New River. A large combination gaso-  
line motor car has been ordered for  
service on this line. It has a seating  
capacity of fifty and a large baggage  
compartment, and will cost \$12,000. It  
is due to be delivered early in July.

The extension will have three sta-  
tions—one to be named Wilkie, just  
west of the Brawley main canal; one  
at the new town of Mobile, and one  
at the New River terminus. When the  
townsite of Seelye is to be founded by  
R. R. Crabtree of Covina, and associ-  
ates.

laboratory of the Imperial Union High  
School.

will be united in marriage. An engagement between this  
popular couple has long been suspec-  
ted, but could not be confirmed until yester-  
day. The couple expected to slip

These bonds are guaranteed, principal and interest, by the UNION OIL COMPANY OF CALIFORNIA, a corporation whose net earnings for 1909, after deducting all operating expenses, fixed charges and \$121,000 depreciation, amounted to \$2,645,000.  
Bondholders are further protected by an ample sinking fund, which will retire all the outstanding bonds at their maturity.
